AFTER SCHOOL CODING CLASSES

CLASSES AT ROBERT FROST ELEMENTARY

ROBOTICS: INTRO

Grades 3 - 5

Fri, 3:55pm-4:55pm

Oct 6 - Dec 15 (no class on Oct 20, Nov 10, Nov 24)

\$210 / 8-week session

Learn to code robots! Through a block-based, visual programming platform, coders will learn introductory programming concepts, such as code structure, variables, and loops. They will apply these concepts to program their robot to complete mission challenges, such as avoiding obstacles, light sensing and following a path.

LITTLE CODERS: INTRO TO CODING

Grades K - 2

Thu, 3:55pm-4:55pm

Oct 5 - Nov 30 (no class on Nov 23)

\$199 / 8-week session

This class offers young children the perfect opportunity to develop their computational thinking skills and have a blast with their friends! The course is tailored for early readers and takes into consideration their cognitive abilities and attention span. Beginners learn essential coding concepts, such as Loops and Conditions. Returning students encounter new challenges. Projects include games, stories, and even animated characters.
